- Success ke baad Home

Recover Cloud Data (one tap)

Kaam: Latest Drive backup uthakar phone local data update.

Kahan mila: Empty Home banner · More → Recover Data · Settings · Restore screen

1. **Recover Cloud Data** / **Recover now**
2. Confirm
3. Customers, ledger, payments load

Automatic sync (edits ke baad)

Customer / Transaction / Payment **add, edit, delete** ke ~4 seconds baad app quietly Drive par latest backup update karti hai (agar online + signed in).

Reinstall ke baad sahi tareeqa

1. App install
2. Owner Google Sign-In
3. PIN set/enter
4. **Pehle Recover Cloud Data** (Backup Now empty data se mat dabayein pehle)
5. Phir normal use + auto sync / Backup Now

Important: Empty phone par pehle Backup Now mat chalao – pehle Recover/Restore karo. Agar Drive file Trash mein ho to pehle Google Drive Trash se Restore karein.

10. Important Tips (Asaan points)

- Sirf **allahwarismotors@gmail.com** se app / backup chale ga.
- Phone change / uninstall: pehle kabhi Backup / sync hona chahiye; naya phone → Recover.
- "App is not safe" Play Protect message sideload APK ki wajah se hota hai – **Install anyway** choose karein (workshop apni APK).

- Fingerprint Settings → Security mein, Google login ke baad.
- Currency har jagah **Rs** format mein.
